GERMANY'S CONDUCT OF THE WAR DENOUNCED

TO CO-ORDINATE WIRE SYSTEMS

Burleson Sends Recommendations of Control Board to House Committee.

END LABOR TROUBLES

Proposals include Creation of Tribunal to Hear All Controversies That Arise Between Companies and Employees.

Washington, May 23.—Postmaster General Burleson forwarded to the house postoffice committee recommendations of the wire control board that legislation returning the telephone and telegraph systems of the country to private ownerships provide co-ordinated operation of the various systems and fixing of rates by the interstate commerce commission.

The wire board's recommendations also include creation of a tribunal to hear all controversies between employers and employees and that changes in wage schedules shall not become effective until submitted to the Interstate Commerce commission, so that corresponding changes may be made in rates.

Mere return of the wires to their owners will not solve vexatious problems confronting the companies, Mr. Burleson said in his letter to Representative Moon of Tennessee, ranking Democratic member of the committee, transmitting the recommendations.

High Costs to Continue.

Extraordinary costs of operation and maintenance "fastened upon them as a result of war," the Postmaster General said, "will continue for some time after control passes from the government."

"Because of these extraordinary changes in the operating conditions," the letter continued, "a serious responsibility rests upon the government to adopt every means possible, consistent with sound policy, to protect the public and enable owners to operate their properties.

Members of the board are of the opinion that in order to provide the most efficient wire service the various service systems should be co-ordinated as to operation. This does not require monopoly of ownership, but is necessary so there can be a consistent and harmonious regulatory policy.

To Stop Duplication.

"Through this means only can the attempts at wasteful competition and the economic loss occasioned by duplication of plant and force be avoided.

"Hence it is believed the law should be so amended as to empower the Interstate Commerce commission to fix rates for telegraph and telephone companies, subject to provisions of the act and that any company whose lines are located entirely within a state, but which transacts direct interstate business should be subject to the act."

FLIERS MAY ASSUME RISKS

British Officials Will Not Curb Trans-Atlantic Flights.

London, May 23.—In the House of Commons the government was asked if it were considering the limiting of further attempts to fly across the Atlantic, in view of the desperately hazardous conditions.

Major General Seeley, under secretary of state for air, stated that the matter had been given the most careful thought by the government which considered that it was not its function to say to its constituents that they should not undertake this daring flight and the attendant risks.

CLERGYMEN ARE UNDERPAID

Less Than Half Baptist Ministers Get \$1,500 Per Year.

Denver, May 23.—"Day labor wages for Baptist clergymen is a blot upon the denomination: less than half the nation's Baptist ministers receive \$1,500 a year." This declaration was made to the Northern Baptist convention by Dr. E. T. Tomlinson, of New York, in presenting the report of the ministers and missionary board.

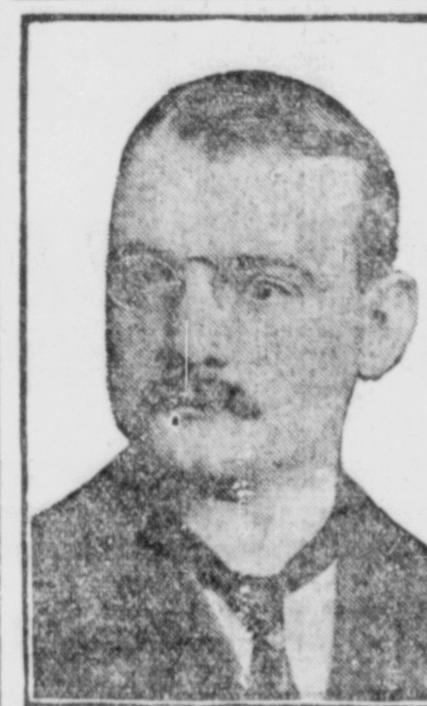

This statement and plans of American Baptists for Americanization of aliens in the large cities were the outstanding features of the session.

PRESBYTERIANS MAY UNITE

Southern and Northern Bodies Agree to Negotiate.

St. Louis, May 23.—Following receipt of a telegram from the Southern Presbyterians stating that the southern body agreed to negotiate for the organic union of all Presbyterian churches, the 131st general assembly of the Presbyterian church, U. S. A., sent a reply saying the denomination meeting here is ready to begin negotiations at once, and that it is believed a closer relationship will result.

NICHOLAS LONGWORTH
Criticises President's Attitude On Prohibition Question.

Starch Plant Explosion Kills Ten, Many Injured

(By United Press)

Cedar Rapids, Iowa, May 23.—Ten persons were killed and four were missing as a result of a dust explosion wrecking the starch plant of the Douglas Company here last night. Scores were injured by flying debris.

The NC-4 Will Not Start Today

(By United Press)

Washington, May 23.—The NC-4 will not start today. The seas are too rough. This message was received from Ponta Del Gada, Azores, at the navy department today, showing the American seaplane will be unable to start before tomorrow.

Senate Passes Urgency Deficiency Bill

(By United Press)

Washington, May 23.—Without debate the senate today passed the deficiency bill appropriating forty-five million dollars to pay war risk insurance allotments. The bill had already passed the house and now goes to the president.

REJECT GERMAN IDEAS

Allies Answer Note on Economic Effect of Terms.

Declare Germans Fail to Appreciate the Enormity of Their Responsibility for War.

Paris, May 23.—A categoric negative reply to the German note on the economic effect of the peace terms was sent by the Allied council to the German delegation. The reply characterizes the German note as exaggerated, and says it indicates failure to appreciate the enormity of the Germans' responsibility.

The Germans are reminded "that it is right that Germany, which was responsible for the origin of these calamities, should make them good to the utmost of her capacity."

The Allied reply to the German note regarding the league of nations, which was delivered, says in general that the council considers that "the proposals for the covenant are much more practical than those of the German government and better calculated to secure the objects of the league."

Regarding the suggestion of a separate mediation office, this is not considered feasible, since such a body would not have the requisite authority to maintain the peace of the world.

New Pacific Cable Projected.

Tokio, May 23.—A number of prominent business men here have decided to form a Japan-American submarine cable company to lay another cable across the Pacific. The company, which will have a capital of 50,000,000 yen, will seek a subsidy from the Japanese government.

ARMY WORM AMONG WHEAT

Grain Destroyer Has Made Its Appearance in Texas.

Washington, May 23.—Reports to the Department of Agriculture show that the 17-year locust has put its appearance in nearly every state east of the Mississippi river.

Despite the fact that this threatens to be perhaps the biggest locust year since 1868, department entomologists are not alarmed—but they are worried about the army worm.

The army worm has appeared in Texas and begun a march north.

FIGURES ON COURT-MARTIAL

Five Hundred of Four Thousand Objectors Tried.

Washington, May 23.—Members of the American Legion who, with patriotic Americans everywhere have criticized the treatment of "conscientious objectors," found interesting evidence in figures from the War department.

Of 4,000 objectors, the figures show, slightly less than 500 have been court-martialed for their refusal to serve the United States during the world war.

COST OF SENDING TROOPS

Sea Passage for Each Man Was at Rate of \$35.

Washington, May 23.—It costs \$35 to carry each American soldier to France and \$60 to transport each ton of supplies or war material sent them, according to official estimates.

Two million men were sent overseas at a total cost for passage of about \$70,000,000. British ships carried about 51 per cent of these men.

(By United Press)

Paris, May 23.—In a scathing denunciation of Germany's conduct of the war the allies have refused to accept the contentions put forward by the German delegates regarding economic conditions in their country. The reply made public today charged that the report of the German economic mission upon which Foreign Minister Brockdorff-Rantzau's note was based, is marked in part by great exaggeration. The allied reply in part said: "The share which Germany is being called upon to bear of the enormous calamity that has befallen the world has been apportioned by the victorious powers not on her just desserts, but solely upon her ability to bear it."

Universal Military Training and Small Regular Army

(By United Press)

Washington, May 23.—The creation of a standing army of 100,000 men supported by a system of universal military training is the program favored by Rep. Kahn, California, chairman of the house military affairs committee.

GERMAN TERMS FORECAST

Probable Counter Proposals to Be Made by Huns.

Berlin, May 23.—Germany's final counter proposal to the peace treaty will, it is learned from an authoritative source, be constituted as follows:

First—Insistence on fulfillment of President Wilson's principles.

Second—Request for a plebiscite in the eastern and western provinces.

Third—Acceptance of the principle of full disarmament, but with the reservation that 200,000 troops are necessary to maintain internal order.

Fourth—Complete agreement for elimination of the German navy, but with insistence that some merchant ships be retained to insure the country's economic development.

This information was obtained from an official in close touch with the delegates at Versailles. He made the statement without qualification. The German government, he said, believes the eastern plebiscite would be advantageous to Germany and regards victory in the Saar basin as certain in the event of a vote.

From another source it was learned that Germany also will urge that the indemnities be lumped in one sum, instead of an indefinite amount to be collected during a long period, so the German workmen, financiers and government may know the extent of their obligations.

EXPECT GERMANY TO BLUFF

But French Officials Believe Envoy Will Sign.

Paris, May 23.—The German peace delegation will make an eleven hour bluff to break off negotiations, according to the belief expressed in official French circles.

Once the enemy sees the Allies mean business—realizes that the economic blockade will be tightened and sees the Allied army spring to attention, ready to march into Germany—either the present or a substituted delegation will sign "under protest," is the way the French have it figured out.

DISCUSS EVIDENCE SCOPE

Attorneys in Ford Libel Case Argue Points of Law.

Rome, May 23.—The volcano of Stromboli is in violent eruption according to reports received here today. Several persons are said to have perished and many have been injured. Rescue parties are enroute from Messina.

Italian Volcano in Eruption

(By United Press)

Washington, May 23.—A Mitchell Palmer again nominated by Pres. Wilson for appointment as Attorney General. Palmer now holds the office as a recess appointee, made when the senate failed to act last session.

Italians Change Peace Delegates

BY HENRY WOOD,

(United Press Staff Correspondent)

Paris, May 23.—Count Imperiali, Italian ambassador to Great Britain and Signor Crepi, Italian food commissioner, have replaced Antonio Salvage-Ruggi on the Italian peace delegation.

Airplane Ascends 23,786 Feet.

Turin, Italy, May 23.—Lieutenant Prackpapa, an Italian aviator, in an airplane with three passengers, ascended to a height of 23,786 feet. The ascent was made in 40 minutes.

New Artillery Storage Depot

Washington, May 23.—Construction of artillery storage depots at Savanna, Ill., Port Clinton, Ohio, and Aberdeen, Md., have been authorized by the War department.

Russian Troops Capture Town at Head of Lake Onega.

Archangel, May 23.—Russian troops co-operating with the Allied force on the Murmansk front captured the town of Povinetz at the head of Lake Onega.

Woman Killed by Gas.

Richmond, Ind., May 23.—Mrs. Jennie Duffee, 58 years old, was found dead at her home here. She was overcome by gas escaping from a stove. One son, Floyd, an instructor in the University of Wisconsin, survives.

CO-OPERATING WITH ALLIES

Rusian Troops Capture Town at Head of Lake Onega.

Archangel, May 23.—Russian troops co-operating with the Allied force on the Murmansk front captured the town of Povinetz at the head of Lake Onega.

The message states that the Esthonians "near Gatschina have captured the railway station of Vrugo with 700 prisoners." (Gatschina is 35 miles directly south of Petrograd.)

THREE BIG BILLS KILLED

Measures Are Defeated in Wisconsin Legislature.

Madison, Wis., May 23.—Three big measures were killed in the Wisconsin legislature.

The assembly by a vote of 41 to 38 killed the M. E. Johnson bill for an eight-hour day. The Senate by a vote of 14 to 12 killed two bills, one for an electric railroad and the other for an elective tax commission.

ARMY AVIATOR MAKES RECORD

Fires From Gotham to Portland, Maine, 500 Miles, in 250 Minutes.

Washington, May 23.—A new time record for airplane flights is announced by the war department upon receipt of an official report that Major Gilkeson, of the Army Air service, had flown from New York city to Portland, Me., a distance of 500 miles in 250 minutes.

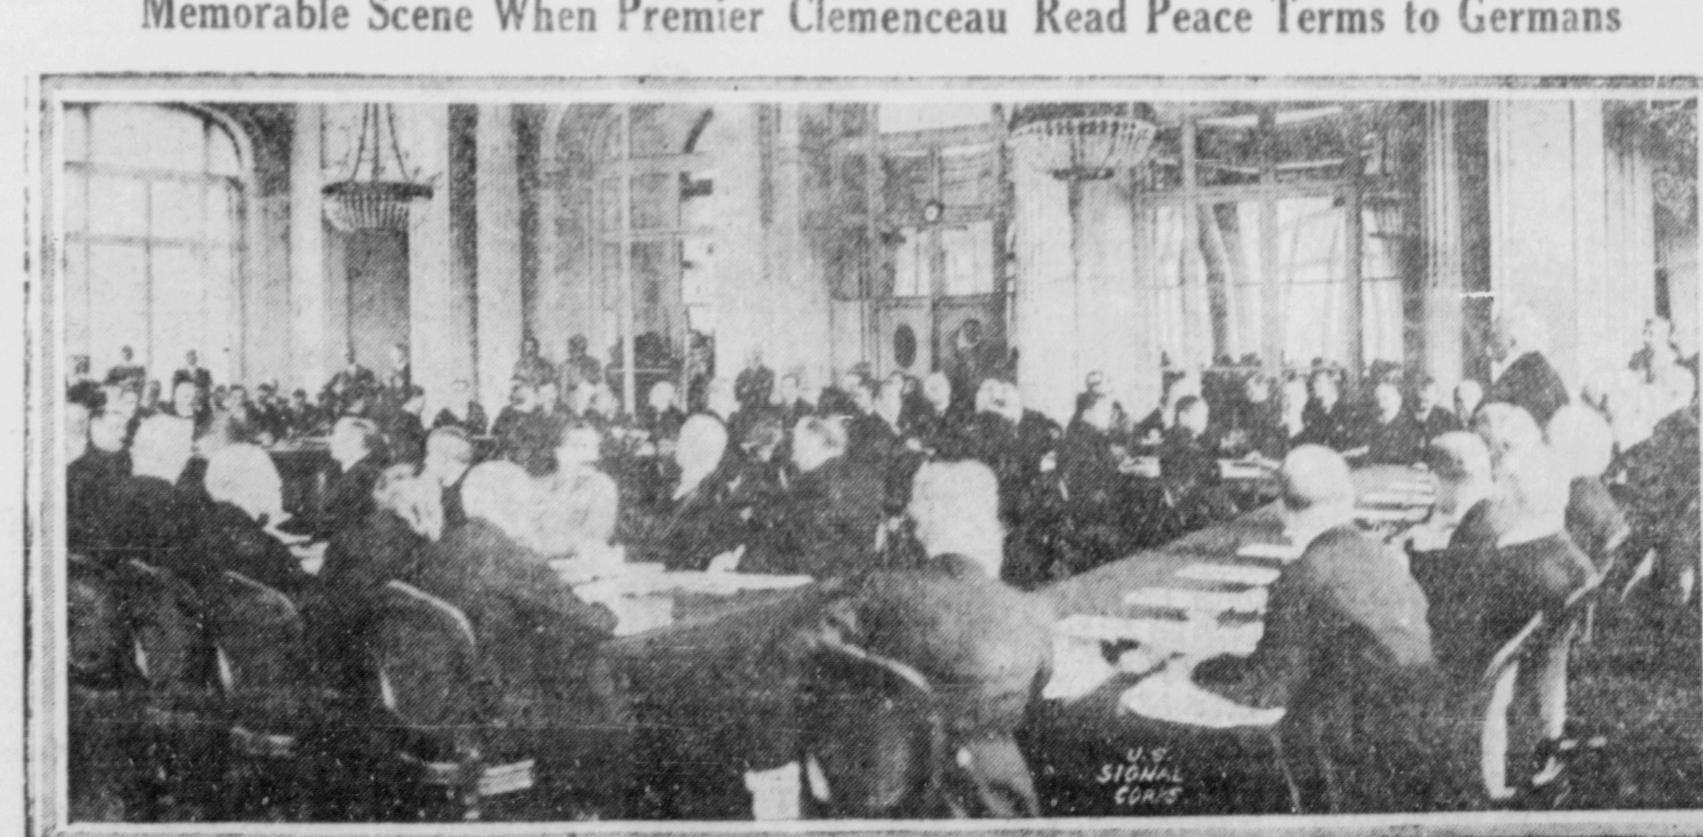

Tuberculosis Investigation Begun.

Washington, May 23.—Investigation of tuberculosis among workers in the dusty trades has been started by the Department of Labor under the auspices of the committee named by the National Tuberculosis Association.

Alice Brady, Actress, Married.

New York, May 23.—Alice Brady, star of the stage and the screen, was married Tuesday evening to James L. Crane, actor son of the Rev. Dr. Frank Crane, it was learned.

German Delegates are Seated at Extreme Left.

Premier Clemenceau

GERMAN SOVIET DEMANDS PEACE

Berlin Soldiers' and Workers' Council Insists on Signing of Treaty With Allies.

ITALY MUST EXPLAIN

Called on by Allies to Tell Why Her Soldiers Were Landed in Turkey.

Orlando Asks Venizelos to Withdraw.

Berlin, May 23.—The soldiers' and workers' council of Greater Berlin has adopted a resolution demanding that the peace treaty be signed and appealed to the proletariat of the Allied nations.

One hundred thousand independent socialists staged a demonstration in the Lustgarten in favor of immediate peace. They bore numerous red flags and banners with the inscription, "We Want Only Peace, Bread and Work."

After they had been addressed by several speakers, the independent socialists marched to Wilhelmplatz, where 25,000 majority socialists were conducting demonstrations against the treaty.

Before the appearance of the independents, Chancellor Philip Scheidemann, addressing the crowds, declared that "protest is Germany's only remaining weapon."

Ask Italy to Explain.

Paris, May 22.—It has been learned in trustworthy quarters that the United States, Great Britain and France have united in sending notes to Italy, requesting an explanation of the landing of Italian forces in Turkey.

Premier Vittorio Orlando is said to have made a reply to the Council of Four after a sharp personal incident during which he objected to the presence of Premier Eleutherios Venizelos of Greece. The latter retired from the meeting.

In evident anticipation of a Greek mandate to administer the Smyrna district, allied forces were landed at Smyrna last Thursday, meeting with considerable resistance from the Turks. Italian troops were reported to have participated. The Italians had previously landed forces at Adalia on the southern coast of Asia Minor and likewise disembarked troops at Budrum, 96 miles southeast of Smyrna and at Makri on the gulf of Makri in the village of Smyrna.

What "Sunkist" Means

Remember this when you buy oranges—
"SUNKIST" means "uniformly good"

IT means that the oranges so designated have been judged to be of good eating quality by experts who are skilled in the selection of good fruit.

No one can say that every orange is perfect, just by looking at it. But experts are likely to be more than 97 per cent right.

So in asking for "Sunkist" oranges when you buy, you are choosing according to an expert's as well as your own judgment.

Don't you think you are likely to get the most for your money if you select already selected oranges?

Sunkist Uniformly Good Oranges

Sweet, juicy, delicious. At all first-class stores. Make sure the name "Sunkist" is on the wrapper.

WOMAN'S REALM

Dazzling Summer Fad

By MARGARET ROHE
(Written for the United Press)

If you have a little gilet, Brocade, tricole or flét. You'll be swaggy, willy nilly: Though what really knocks 'em silly. Is the girl behind the gilet.

New York, May 23—You just must invest in a vest for your new coat suit will be a total waste without a waistcoat.

A little gilet is a dazzling thing, particularly when it is made out of one of those gorgeous metallic brocaded ribbon lengths. Blazing in gold and silver and hectic dyes, it helps the modern maid present a brilliant front to the world, even though the deepest of indigo serge surges all around her.

Indeed, every well regulated and up-to-date coat suit opens up over a gilet and opens up at the same time like endless possibilities of divers and different gilets that it's no wonder all the feminine world is simply gilet mad.

Now that Sister Susie has ceased sewing shirts for soldiers, she is feverishly busy making up endless gilets for herself out of odds and ends in the family scrap bag. For these fascinating little vestees that lend such charm and piquancy to the severest suits are positively evolved out of anything and everything.

Wool and silk jersey, hand embroidered in vivid yarns; broadcloth stitched in silk, or even stenciled in a bold design; linen and pique, masculinely buttoned, plain and close, with pearl, sheer, frilly, feminine affairs of hand tucked, ruffled and lace inserted organdie are but a few of the 57 varieties. There are quaint little changeable taffeta waistcoats that present a double front and show a dainty inset of ivory toned batiste, lavishly tucked, ruffled and lace trimmed, like a much befuddled shirt front of the long ago male fop. Still others are quilted like the spare room bedspread and others have eruptions of colored beads in intricate designs. Braiding, too, adds its decorative touch and often a bit of hand painting vies with the similar treatment of the face above the gilet.

It is perfectly obvious that to be the proud possessor of one gilet doesn't at all suffice. The really smart woman owns a whole collection. One for each day in the week. They run the gamut of all the styles and also all her emotions. When she is feeling feminine and meltingly alluring, she dons a soft and frilly vest or organdie; a bit devilish, and a striking black-and-white striped affair of taffeta is her choice; when cold and haughty and severe, one of those plain pique effects; wistful and sad, a dove grey jersey splashed with beaded tears of steel; or, scintillating opulent and full of pep, she presents a metallic brocaded gilet to the fore. Think what a helpful hint to husbands it would be to possess a gilet key to wife's very mood.

Not only are our suits all vested up. Our one-piece frocks and separate blouses too are being done with simulated gilets. Capes have gilet fronts and, yes, they have even invaded the realm of the undergarment. When we take off our gilet at night it is only to slip on another in the form of a vestee-fronted nightie. The newest chemises and combinations with their distracting pinkness and sheerness, show, among other things, the gilet influence. As these gilets are born to blush unseen, however, it is with the gilet of the suit that we are most concerned. Matching up these ubiquitous waistcoats with hat, parasol and bag is become a favorite sport. So you can plainly see that a suit quiltless of a gilet, is like a slipper sans the buckle and neither omission is permissible this season.

Food Sale

The Woman's Home and Foreign Missionary society of the First Presbyterian church will conduct a food sale Saturday afternoon May 24th at the Shipp-Greunhagen Hardware store.

Nut bread, white bread, rye bread, baked beans, cakes, jellies, etc. can be had for your Sunday dinner. While you are enjoying the home cooked food you will have the satisfaction of knowing that you are helping a worthy cause.

Cut This Out—It is Worth Money

SENIOR-JUNIOR PICNIC

Appetite for Ice Cream Very Nearly
Swamps the Refreshment
Committee

The seniors entertained the juniors and the faculty at the annual picnic at Gilbert Lake on Wednesday. The weather was so wonderful that they turned out to the number of more than a hundred.

The lake was dotted with boats filled with happy students. At six, wiener were roasted in a big fire out on the point and various other refreshments disposed of. The committee in charge of the ice cream freezer had not gauged the appetites properly so that they had difficulty in filling the cones full enough.

They all voted the picnic a great success and were only sorry that school closed so soon. For the seniors, especially, the end of school means that never again will they all get together in the high school.

TAG DAY ADDITION

The Northwest Paper Co. Gives \$25 to Aid Movement—Miss Garrison Now at Pequot

A check of \$25,000 toward the Tag Day receipts was received yesterday from the Northwest Paper Co.

Miss Garrison, the County Nurse is spending the last three days of this week in Pequot at the request of Superintendent Bush. Mrs. Hartley accompanied her there Wednesday, remaining for part of the days work in the Consolidated school.

Miss Garrison will be in Brainerd Saturday in attendance at the Child-Welfare meeting being called by Chairman L. P. Hall at the Chamber of Commerce at 2 p.m. It is a public meeting. Especially all those who assisted in Tag Day are cordially invited to attend and meet Miss Garrison at that time.

BLAST WRECKS
STARCH WORKS

About a Score of Persons Are Killed and Many Injured at Cedar Rapids, Iowa.

ENTIRE CITY SHAKEN

Flames Follow Explosion and Property Loss Is Placed at Three Million Dollars—Broke Mains Hamper Firemen.

Cedar Rapids, Iowa, May 23.—An explosion at the Douglas Starch Works killed about a score of persons and injured 100 others. Of the 150 men and boys who had just gone to work few escaped injury or death. The entire plant was burned by resultant fire, which was confined to the Douglas works, with a loss of \$3,000,000.

The number of dead could not be estimated for some time by firemen, who were rushing removal of dead and wounded from the debris. The injured were rushed to hospitals and homes as rapidly as volunteers with automobiles could be mustered. So severe was the explosion that persons were thrown from chairs a mile away. The accident is thought to have been due to either a defective boiler or spontaneous combustion.

Nine hundred motor trucks began to move Tuesday from west of the Rhine to the bridgehead area. The trucks are being distributed to various points of advantage among the troops holding the zone east of the Rhine should the occasion arise for the Americans to start an advance.

The recall of Generals Liggett and Hines, it was learned in Coblenz, is part of the new program for the American army in the event the Germans do not accept the peace treaty.

She Finds Herself Much Better

Lame back rheumatic pains stiffness and soreness in muscles and joints can be quickly relieved. Mrs. L. Wayne, 2726 3rd St., Ocean Park, Cal., writes: "I used to have pains in my right hip. I could hardly turn in bed. Now I find I am much better by using Foley Kidney Pills. Likewise pains in my back left." H. P. Dunn, druggist.

"Who Can Tell"
Doughboy Comedy

(By Overseas Camp Dodger News Service)

Gondrecourt, France (Special by Mail)—"Who Can Tell?", a huge musical comedy production with a cast of 110 doughboys and an orchestra of 50 pieces, is the latest activity of the Eighty-eighth division, bidding its time until sailing date of the boats which are to take the Clover Leaf division to the homefolks.

The show, which opened for a week's run at divisional headquarters, Gondrecourt, on Monday, April 21, has already received high compliments from A. E. F. staff officers who have seen it, and Paris producers fought for the privilege of showing it at their respective theatres in gay Paree. The management has accepted a booking for the week of May 12 at the Trocadero theatre in Paris.

A beauty chorus, composed entirely of doughboys from the Eighty-eighth division, is causing riots of envy among the French demoiselles of the area who have seen the show. Chief cause of envy is said to be the gowns, which were especially designed for the piece in Paris by the Landor establishment, costumers for Sara Bernhardt. Costumes alone cost \$15,000 which sum was donated by the Jewish Welfare board.

Music for the show is original and was arranged and composed by Lieut. Edward Collins of the Clover Leaf outfit, erstwhile accompanist for Mme. Schumann-Heink. Two of the original songs in the productions, "Modern Gypsy Rag" and "My Clover Leaf Girl" bid fair to become popular song hits in the A. E. F. at

It was warm.

Watermains were cut by the force of the explosion, making the work of the firemen harder.

An engineer who was blown out of the building said he believed his boiler had exploded.

Every window in the central part of the city was broken. Chimneys caved in on families at the supper table and guests in the dining rooms of hotels were thrown from their chairs.

Indian Potlatch.

Potlatch is a corruption of an Indian word common among the Pacific coast tribes, meaning a festival of gifts. At a potlatch (potlatch) celebration the more personal property an Indian gives away, blankets, ornaments, etc., the higher he stands in the estimation of his neighbors, and the more he expects to receive in return at the next potlatch. The festival is accompanied by music, dancing and feasting.

Lieut. Arthur Kachel, who has had considerable theatrical experience "back home", has been in charge of the production. Training of the large cast was directly in the hands of Mr. Dinnie McDonald, who achieved fame as the director of the navy's big show, "Biff Bang", which had a record run in New York City. Mr. McDonald is authority for the statement that the production in size, elaboration, scenic effect, costuming, and even in choralepsies, equals any Winter Garden production.

The premier week's performance staged in the production's home theatre at Gondrecourt consisting of a made-over double airplane hangar, with a 50 foot stage, seating capacity

* * * * *
* Commander of the NC-1.
* Who With His Crew Was
* Picked up by Steamship *
* * * * *

Lieut.-Comm. P.N.L. BELLINGER

for 3,600, with electrically-lighted walkways over the audience. Soldiers were turned away from the first week's packed houses.

Every man in the division was given an opportunity to see the show as the different organizations were assigned to special nights. Trucks carried the men to the theatre and then back to their billets after the performance.

Baseball Crowded
Out by Cricket

(By United Press)

London, (By Mail)—interest in American baseball here which was stimulated in the last two years by a number of young Americans in London, is beginning to die out by the revival of enthusiasm for cricket—the national pastime.

Nearly two hundred cricket clubs were doing a booming business in London alone today. Though the sport has not approached its pre-war status, preparations that are now going on tend to indicate that baseball will stand little chance to compete with it for public approval. Many objections to cricket have been met with changes and further consideration is being given to suggestions that the games be shortened.

In addition to the numerous teams in London, each county possesses one or more teams. The government is also considering a request from a number of prominent cricketers that in every town in Britain a plot of land be purchased by the government to be used for cricket.

Women Have Equal
Vote in Conference

(By United Press)

Washington, May 23.—The first national political "pow-wow" in history to be attended by both men and women's Republican state central committee sitting as delegates.

Republican party chieftains at the opening of the conference said that women delegates would have an equal voice with the men in deciding organization maneuvers and policies to be outlined with a view of carrying the party to victory in 1920.

The prospects for the passage of the constitutional suffrage amendment during the present session of the sixth congress are also expected to come up for discussion.

The conference, which met at 10 o'clock this morning is to continue through today and tomorrow, ending with a banquet tomorrow night.

SCORES FOOD PROFITEERS

House Member Says Situation Should Be Investigated.

Washington, May 23.—Food profiteers were denounced in the House by Representative Fitzgerald, Democrat of Massachusetts, who declared it was the paramount duty of Congress to find out speedily what the food situation in the country was and whether the government was conniving at cornering prices by heavy reserve storage. In this connection he referred to the large surplus stocks of meat products ordered for the army and held by the War department.

MOSCOW REGIMENT DESERTS

Soldiers Slay Anarchist Officers and Join Siberians.

Omsk, May 23.—The Tenth Moscow regiment, a part of the Bolshevik army, has surrendered with its arms and ammunition to the Siberian army of the Kolchak government. The regiment, made up principally of workingmen, refused to go to the front but as many of the soldiers were shot. Finally the regiment went to the front but as soon as it reached the firing line the soldiers killed their officers and went over to the Siberian army.

LADIES! DARKEN
YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color is well known to everyone's knowledge. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and untidy. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

CLASS DAY PROGRAM OF SENIOR HELD

MEMORIAL IS GIVEN SCHOOL

A New Set of Encyclopedias, Erle V.
Tornstrom Making the Pre-
sentation Address

The class day program at the Brainerd high school assembly room drew a large audience. The class history was given by Miss Mildred O'Brien. The class statistics written by Miss Dorothy Carmichael and Erle V. Thorstrom was read by Miss Carmichael. The class prophecy written by John A. Thabes, Jr., was read by George Lind. The class will was written and read by Henry Cunningham.

The memorial of the class, 24 volumes of the International Encyclopedia, was presented to the school, the address being made by Erle V. Tornstrom. It was accepted by Harold Opsahl, president of the juniors.

Mr. Tornstrom said that as the seniors were soon to leave, they had left behind them a monument and a fund of information and a well of knowledge from which juniors and freshmen were privileged to take copious draughts.

The class song and class yell followed. Brainerd this year graduates a class of 52, one of the largest in its history.

CROW HUNT

R. D. King Stages One and Offers a Prize of a Rifle to Man or Boy With Largest Kill

R. D. King has staged a crow hunt, falling in line with the general demand in the country to assist in ridding communities of this game and crop destroyer. Crows are especially undesirable because they eat the eggs of game birds.

Mr. King will give a rifle to the man or boy who brings in the largest number of crow bills. The bill is to be cut off just above the nose hole, hung up to dry and brought in once a month up to Sept. 1, when the award will be made.

BIDS WANTED

Bids will be received up to 8:00 p.m., June 2nd, 1919, for the furnishing of meals for city prisoners, by the City Council of the City of Brainerd, Minn.

The council reserves the right to reject any or all bids.

May 21st, 1919.

29819
City Clerk.

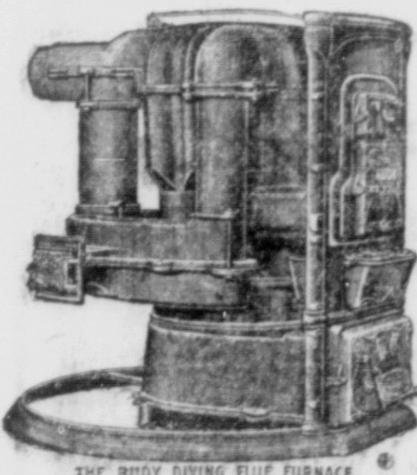

OLD PAPERS—5c BUNDLE

If buying a new automobile, would you buy an 1897 model?

It remained for the

Rudy Furnace Co.

of Dowagiac, Mich., to design that new—that different Furnace. It was a telling stroke—the first real advancement in warm air heating construction for many years.

Always on the alert for anything which will better serve our customers, we hastened to secure the agency for Brainerd and vicinity.

It's the one furnace with a casing large enough to carry away the heat generated. That's economy for you—no hot basements with the RUDY installed.

DECLINES POSITION

Secy. Fred T. Lincoln Offered Secretaryship Bemidji Association, Remains With Brainerd

It is not generally known that the position of secretary of the newly reorganized Civic and Commerce association was recently offered F. T. Lincoln of this city and that Mr. Lincoln, after taking the matter up with a special committee of the local Chamber of Commerce, has declined the position, which carries with it an increase in salary.

The following from the Bemidji Pioneer of May 20 refers to the tendered position and is corroborated by Mr. Lincoln today:

"Services of Fred T. Lincoln, secretary of the Brainerd Chamber of Commerce, are not to be secured by the Bemidji Association. Announcement of this fact was received by R. L. Given, Association president, this morning.

For three years Lincoln has directed the affairs of the Brainerd organization, and so efficient has been his service and so beneficial have been the results of his endeavors that the directors of the Chamber of Commerce have refused to accept his resignation, and instead are planning to enlarge the membership of their association that the position can be made more attractive to the secretary.

An invitation was extended to Lincoln to become secretary of the Bemidji Association last week, following a special meeting of the board of directors at which he was unanimously elected, it being understood that he could come to Bemidji July first to take up the work.

Brainerd cannot be blamed for its desire to keep Secretary Lincoln. He is exceptionally well qualified for the work in which he is engaged. He is energetic, possesses a keen foresight so essential to a civic worker, and has a happy faculty of getting desired results. As an executive his worth has been well demonstrated by his success as secretary of the Northern Minnesota Development association and his election as secretary of the northern division of the Mississippi River Scenic Highway association and of the League of Minnesota Community clubs."

FRANK V. LUND

Passed Away at Age of 65 at Home in Southeast Brainerd—Leaves Wife and Six Children

Death came peacefully Thursday night to Frank V. Lund of 1501 Southeast Norwood who has been bedridden fourteen months suffering with anemia and jaundice. He was conscious to the last and members of the family were about his bedside when he passed away. During his sickness he was patient and cheerful and to many his example was a true exhibition of Christian fortitude.

He was 65 years old and had lived in Brainerd 25 years. He leaves a wife and six children, Frank of Spokane, Wash.; Walter of Portland, Ore.; Victor of Brainerd; Mrs. Roger Weybright of Brainerd; Venner of Virginia, Minn.; Sigrid of Brainerd.

He belonged to the Evangelical Lutheran Synod church of Quince Street and at the funeral there Monday afternoon at 3 o'clock, Rev. Andrew Karhu will officiate.

Shopmen knew him well for he had worked in the lumber yards of the Northern Pacific plant here eighteen years.

Friends of the family extend to them their deepest sympathy.

ROLL OF HONOR

Minnesotans are coming home. Five transports arrived in New York, two on May 17, three on May 18. Scanning the lists one picks up these Brainerd names and others from the vicinity:

113th Infantry—W. Maki, Co. M., Crosby.

Division headquarters detachment, 2nd division—A. B. Myhres, pvt. headq., Crosby.

122d Infantry—W. W. Krueger, pvt. Co. G., Brainerd. Harlan Tolelson, pvt. Co. K. Brainerd. A. Prushak, pvt. Co. L., Cuyuna.

125th Infantry—Charles Brandt, pvt. Co. M., Deerwood.

327th Infantry—I. E. Cain, pvt. Co. A., Brainerd.

Pvt. Charles W. Green, on his way from Denver, Colorado, visited at the home of Mr. and Mrs. A. Gilbertson, before returning to Camp Sherman, Ohio.

NATIONAL CROW SHOOT IN ORDER

BY PETER P. CARNEY
(Editor National Sports Syndicate)

Canton, S. D., doesn't occupy a great deal of space on the map of the United States, but smallness is no bar to good ideas.

Canton is responsible for one of the best ideas that has come to our notice in many moons. The way the idea is being carried out all mankind will benefit.

Every year Canton holds a crow shoot. During the period of the shoot Canton and vicinity is an unhealthy place for an unfriendly bird.

What is good for Canton is good for the rest of the United States and Canada—so we are now having a National Crow Shoot. This shoot will not conclude until the last day of December this year. After the huckshot brigade removes a lot of "caws" from this world we will have Canton to thank for inaugurating the shoot.

Kill the Crow

The destruction of the crow is a matter of the utmost importance. The crow is recognized not only as an enemy of the farmer but as a menace to the breeding and propagation of game. In the interests of grain conservation and game protection everyone is urged to clean up the old gun, gather together a lot of buckshot, and then transplant the shot into many crows, keeping, of course, within the Federal and State game laws. Every crow killed means a reduction in the number of pests.

The extermination of the crow is a matter of great importance to the sportsman as well as the farmer. The havoc wrought in the cornfield is self-evident: the depredations in the convoys are noticeable only through results and in many cases the dwindling numbers of game birds are caused more often by the voracious grow than by disease.

It is estimated that insects cause a loss of millions of dollars every year to farmers, truck raisers and fruit growers. The farmers are the producers. Whatever loss they sustain affects the consumer. Song birds are the natural enemies of insect life—song birds alone can check the ravages of insects. Crows destroy birds, birds destroy insects, insects destroy crops—therefore, kill the crow and save the crops.

BIDS WANTED

Bids will be received up to 8:00 p.m., June 2nd, 1919, for official publications for the ensuing year, by the City Council of the City of Brainerd, Minn.

The council reserves the right to reject any or all bids.

May 21st, 1919.

\$5.00

H. F. Michael Co.

LAXATIVE for Aged People

THE BANE of old age is constipation. The bowels become weak and unable to perform their functions without aid. For this purpose only the mildest and gentle laxative should be used. The use of harsh cathartics aggravates the trouble and makes the constipation worse. Chamberlain's Tablets are a favorite with people of middle age and older on account of their gentle action.

Chamberlain's Tablets

Secretary attended the initial meeting of the Mississippi River Scenic Highway Association, Northern Division, at St. Paul on May 21st. Detailed report will be read at this meeting.

The Secretary recommends that during the summer months the Chamber hold but one regular monthly meeting and that be on the 4th Wednesday as far as practical.

Respectfully submitted

FRED T. LINCOLN

Secretary

If We Say It, It's So. If It's So, We Say It.

LIBERTY DIVISION HAS PROUD RECORD

SEVENTY-SEVENTH, 40 PER CENT OF WHICH WAS JEWISH, DID GREAT WORK IN FRANCE.

IT MOPPED UP THE ARGONNE

Jew Soldiers Showed as Much Initiative and Gallantry as Any Other Race—How One Chinaman Earned the Medal of Honor.

By EDWARD B. CLARK.

Washington.—In the adjutant general's office of the war department are the complete records of every soldier, volunteer and drafted man, who fought in the great war. Some day it is probable that a study will be made by historians of the racial groups found in the records.

The army authorities of their own volition probably never will group soldiers, for purposes of publication, according to the races into which they fall. The army naturally and properly takes it for granted that every man in the service is an American in all that the word implies, and that it may be ridiculous and unnecessary to go further than this. It perhaps would be impossible for the authorities to complete accurately a list of the racial groups, because if a man is born in America that fact is put down, and nothing is said about the old world nation from which he sprang; but of course something can be told by the study of the name of a soldier.

Students, however, who are interested in such matters probably will undertake to separate the soldiers into groups according to their national lineage. They go on the supposition that "The proper study of mankind is man," and that anything that relates to differences in capabilities and accomplishments of men of different races is so much gained.

Jews Made Excellent Fighters. An army officer said the other day that one of the great satisfactions to be derived from the American records in the war is the rehabilitation of the Jew as a fighting man. It perhaps is not true that the Jew in any way had deteriorated as a fighting man, but simply that such an impression was abroad. If there was such an impression it has been lifted and thrown into the discard by the fighting in France.

One record, a specific one, is at hand. The Seventy-seventh division of the American army, otherwise known sometimes as the Metropolitan division, and more frequently as the Liberty division, had 40 per cent of Jews in its ranks. They fought as well as and perhaps better than their remote ancestors fought against the Philistines.

The Seventy-seventh division did tremendous work west of the Argonne forest, and later in the Argonne itself. This division in fact did a large part of the work of clearing the Argonne of the enemy and it stood in the fight, with the exception of a short period of rest, from the beginning of the northward drive on September 26, 1918, until the thing ended in the suburbs of Sedan at noon on November 11, 1918.

The word of the officers is that the Jewish soldiers of the Seventy-seventh, not all of whom had had complete military training, went into the fighting as a matter of grim business which was to be cleaned up in the shortest order possible. There are many of these boys who today wear distinguished Service medals and French Crosses for conspicuous personal gallantry in action.

Gallant Work of Individuals. The Jewish soldiers showed for the main part just as much initiative as the men of any other race. Frequently individual soldiers were compelled by the force of circumstances to "go it" virtually alone, or at any rate in little groups of two or three, against machine gun nests. In the face of terrible fire these boys, using such shelters as they could get, closed within hand grenade throwing distance of the Hun machine gunners and bombed them to death or to flight.

The Seventy-seventh had representatives in its ranks of virtually all the peoples of earth. There were more Jews in it than of any other one specific race. The 60 per cent of the division which was non-Jewish was made up of Americans of long descent, of men born in Ireland, Canada, England, France, Germany, Italy, Poland, Russia, Scandinavia and even China.

The Seventy-seventh fought, and fought, and fought, and it did its fighting with high courage and with high success. When one begins to group things racially he will be compelled, so far as the Seventy-seventh division is concerned, to take account of the Chinese. Four men of the Seventy-seventh division received the American Medal of Honor, which is the highest gift the American government can give to one of its soldiers.

A Chinese member of the Seventy-seventh division, wounded and gassed, stuck to his post of duty, with the dead and dying all about him, and alone and exhausted almost unto death, continued to transmit the messages which were entrusted to him. He is now the color bearer of the outfit to which he is attached, and he wears the insignia of all the honors which the French and the American governments can give him.

LIVING IN FRANCE WILL BE IMPROVED

PEOPLE WILL DEMAND AND GET MANY OF THE CONVENiences FOUND IN AMERICA.

LEARNED FROM OUR TROOPS

Good Drinking Water, Bath Tubs, Ventilated Houses and Modern Washing Appliances Are Some of the Things They Want There.

By EDWARD B. CLARK.

Washington.—A bulletin just issued by the department of labor carries this headline: "British Housewives Want American Conveniences."

The department of labor might have gone farther than this, for it truthfully could have said that the French housewives and the Belgian housewives want American conveniences. The American soldiers' ideas of living conditions took hold of the men and women of France. One thing was set down as a truth: When the villages of France and Belgium are rebuilt, bathtubs therein will not be a curiosity as in former days.

The wonder is if Americans who have not traveled abroad have an understanding of housing conditions in France outside of the big cities, and to a considerable extent in the big cities themselves.

Everybody read at the beginning of the war how amazed the villagers and the farming people in France were at the determination of every British soldier to have a bath daily if he could get it by hook or by crook. The water-drinking habit of the British also was hard for the French and the Belgians to understand.

Getting a Drink in Brest.

One can speak from personal experience of certain things which happened after the American army got into French territory. In a hotel in Brest it took me forty-five minutes to get a drink of water. I asked a young woman acting as what we would call a belfop if she would be good enough to get me a drink, or tell me where I could get one. Her answer was a question in French:

"What sort of wine does Monsieur wish?"

When I told her that I wanted a drink of water she looked perfectly flabbergasted. A request of that kind probably had not been heard in that hotel for many moons.

There was a consultation of young women on the subject of how to get me a drink of water. It must be said that this request was made between meals. On the French tables there is always a cradle for ornamental purposes, but brought into occasional use by Frenchmen who like to mix their water with their light wines, although the wine is so innocuous that a dozen glasses of it will not intoxicate.

After the consultation was over a glass of water was produced, but the young woman who gave it to me said that she didn't think it was quite fresh.

It is the hardest thing in the world to get a bath in France unless one is in a big city and even there it is a matter of some difficulty.

No Ventilation for Peasants.

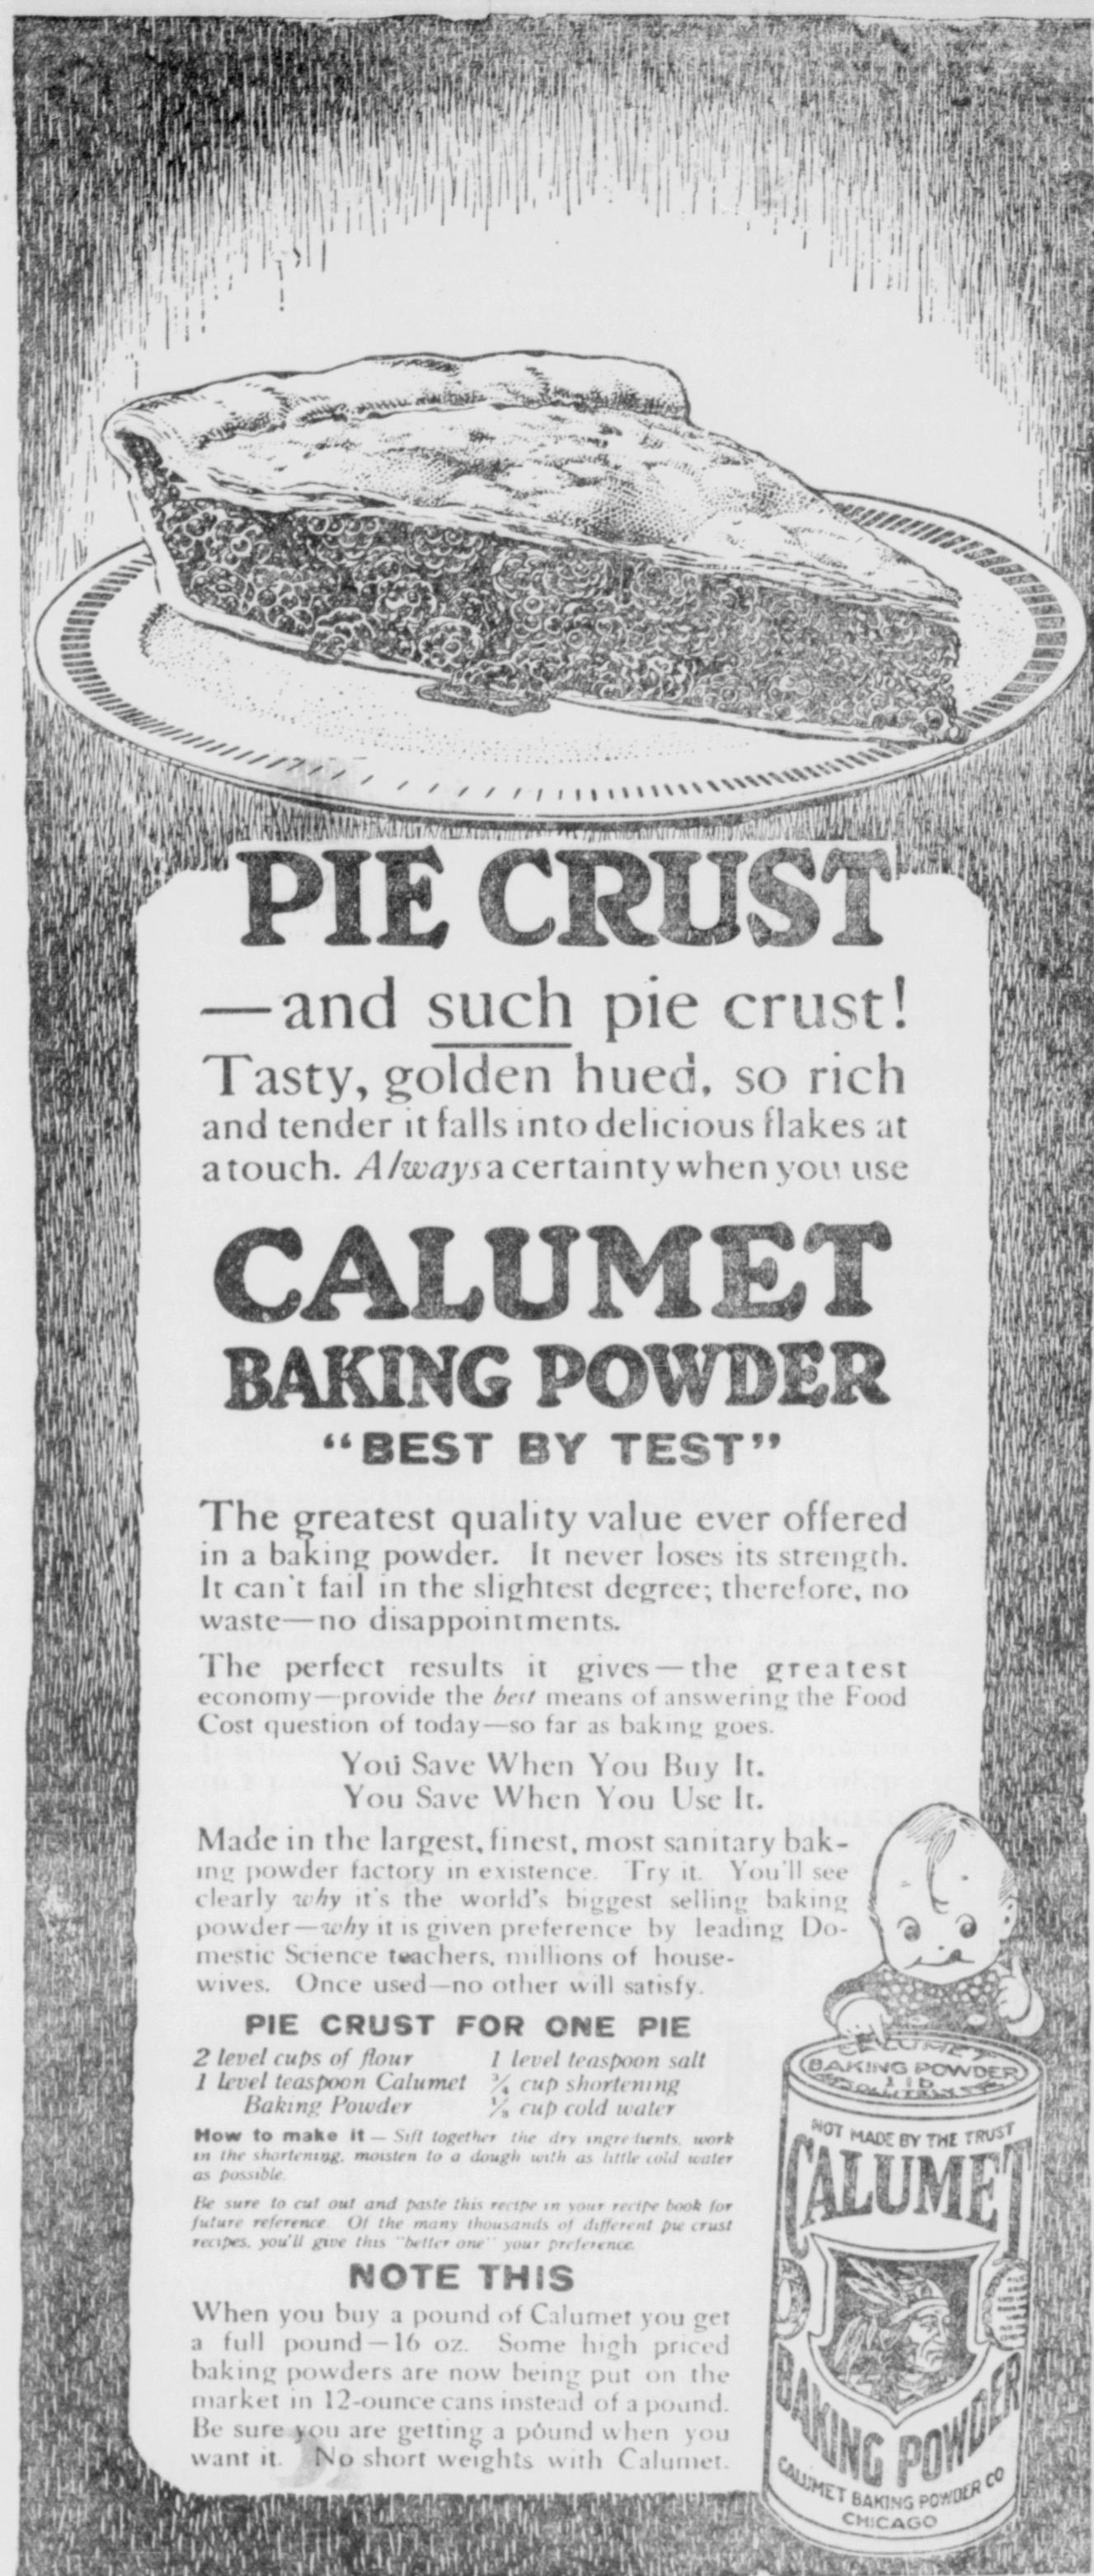

In France the peasants have had the centuries long habit of sleeping with all their windows and doors tight closed. This fact probably is responsible for some of the tuberculosis which exists in France. American soldiers asked the French people in the village in which our boys were billeted why they did not ventilate their houses. American doctors, volunteering to care for some of the sick among the French peasants, insisted on ventilation and many a French man, woman and child, under the direction of American physicians, slept with windows open for the first time in their lives. The report is that they liked it. The word is that the French people in some sections of the country are going to demand American improvements and are not only going to demand them, but are going to get them.

When once the bathtub, the ventilator, modern washing appliances and other modern things are taken into parts of France and put into use, the people of the other parts of the country will demand them.

Many of the villages of France are unsanitary. The stables and the cowsheds frequently are so close to the dwelling houses that they might as well be under the same roof. The refuse from the stables at times is piled close to the entrance of the dwellings. All this is going to be changed. People have learned a lesson and the French government will unquestionably take a hand in the matter because it is engaged in a life-saving crusade now that the necessity for it is so great.

The Seventy-seventh fought, and fought, and fought, and it did its fighting with high courage and with high success. When one begins to group things racially he will be compelled, so far as the Seventy-seventh division is concerned, to take account of the Chinese. Four men of the Seventy-seventh division received the American Medal of Honor, which is the highest gift the American government can give to one of its soldiers.

A Chinese member of the Seventy-seventh division, wounded and gassed, stuck to his post of duty, with the dead and dying all about him, and alone and exhausted almost unto death, continued to transmit the messages which were entrusted to him. He is now the color bearer of the outfit to which he is attached, and he wears the insignia of all the honors which the French and the American governments can give him.

PIE CRUST

—and such pie crust! Tasty, golden hued, so rich and tender it falls into delicious flakes at a touch. Always a certainty when you use

CALUMET BAKING POWDER

"BEST BY TEST"

The greatest quality value ever offered in a baking powder. It never loses its strength. It can't fail in the slightest degree; therefore, no waste—no disappointments.

The perfect results it gives—the greatest economy—provide the best means of answering the Food Cost question of today—so far as baking goes.

You Save When You Buy It.

You Save When You Use It.

Made in the largest, finest, most sanitary baking powder factory in existence. Try it. You'll see clearly why it's the world's biggest selling baking powder—why it is given preference by leading Domestic Science teachers, millions of housewives. Once used—no other will satisfy.

PIE CRUST FOR ONE PIE

2 level cups of flour 1 level teaspoon salt
1 level teaspoon Calumet ¼ cup shortening
Baking Powder ½ cup cold water

How to make it—Sift together the dry ingredients, work in the shortening, moisten to a dough with as little cold water as possible.

Be sure to cut out and paste this recipe in your recipe book for future reference. Of the many thousands of different pie crust recipes, you'll give this "better one" your preference.

NOTE THIS

When you buy a pound of Calumet you get a full pound—16 oz. Some high priced baking powders are now being put on the market in 12-ounce cans instead of a pound. Be sure you are getting a pound when you want it. No short weights with Calumet.

United States Senate.

Each United States senator is elected for six years, unless he is chosen to fill the unexpired term of some senator who has died or resigned. On March 4 in every "odd year"—1919, etc.—the terms of 32 senators expire; that is, one-third of the whole number. By this plan there is never an entirely new senate. Even if no members were re-elected, two-thirds of the membership would always consist of men who have had either two or four years' service.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions, Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
